

EXHIBIT "A"

D. INFRASTRUCTURE ELEMENT

Policy 1.1.1

The following level of service (LOS) standards are hereby adopted and shall be used as the basis for determining the availability of facility capacity and the demand generated by a development:

<u>FACILITY</u>	<u>LEVEL OF SERVICE (LOS) STANDARD</u>
Wastewater	Annual average daily flow shall not exceed 90 percent (90%) of design capacity of each treatment plant. The system shall maintain the capacity to collect, treat and dispose of ~~93~~ <u>92</u> gallons per person per day.
Potable Water	Annual average daily flow shall not exceed 90 percent (90%) of design capacity of the combined treatment plants. The system shall maintain the capacity to produce and deliver ~~102~~ <u>101</u> gallons per person per day. <u>This LOS is calculated based on the methodology acceptable to South Florida Water Management District.</u>

Policy 1.1.8

Monitor water usage for compliance with the City of Sunrise's ~~Consumptive~~ Water Use Permit.

Policy 1.1.13

The City of Sunrise hereby adopts by reference the 10-Year Water Supply Facilities Work Plan, prepared by Stantec Consulting Services, Inc., dated ~~January 2020~~ July 2025, for a planning period of not less than 10 years. The 10-Year Water Supply Facilities Work Plan addresses issues that pertain to water supply facilities and requirements needed to serve current and future development within the City of Sunrise Utility Service Area. The City shall review and update the Work Plan at least every five (5) years within eighteen (18) months after the governing board of the South Florida Water Management District (SFWMD) approves an updated Regional Water Supply Plan. Any changes affecting the 10-Year Water Supply Facilities Work Plan shall be included in the annual update to the Five Year Schedule of Capital Improvements to ensure consistency between the Infrastructure Element and the Capital Improvements Element.
