Date: January 13, 2026

Re: Basis & Justification for Consultant Selection for Professional Engineering Services for the SG WWTP DISSOLVED AIR FLOATATION AND THICKENING PROCESS IMPROVEMENTS project.

The Utilities Department assigned professional engineering services to Hazen and Sawyer for assistance with construction administration services for the SG WWTP DISSOLVED AIR FLOATATION AND THICKENING PROCESS IMPROVEMENTS project.

Basis

The SG WWTP DISSOLVED AIR FLOATATION AND THICKENING PROCESS IMPROVEMENTS project is part of the City's Five-year Capital Improvement Program with funding available for this fiscal year for design services.

Justification

Hazen and Sawyer has provided the City a reasonable proposal for these design services related to this project and is capable of performing the services based on their experience and availability. This assignment has been evaluated for compliance with the objective of equitable distribution of work to the various design consultants under the Continuing Services Agreement, and it is consistent with that objective.
