

**Agenda Management and Meeting Streaming Survey
Broward County Municipalities July 2026**

Municipality	What system do you currently use for agenda management and meeting broadcasting?	How long has your municipality utilized this system?	What were/are the costs associated with implementation and ongoing services?	How satisfied are you with the software? Strengths? Weaknesses?	If not, is your municipality in the process of transitioning to new software?	Which social media outlets do you use to stream your city commission meetings, e.g., Facebook, Instagram, YouTube, etc?	What methods do you use to announce city commission meetings to your residents, e.g., ConstantContact, Facebook, Instagram, Twitter, email, TikTok, website, etc?	Responded
Coral Springs								7/7/26 - Acknowledged, waiting on response.
Deerfield Beach	We use CivicPlus (CivicClerk); we still utilize Zoom and livestream from Zoom through YouTube, then we take the link from YouTube and copy and paste it into the Events section in CivicClerk.	2019. Started livestreaming through YouTube around the same time.	See attached SOW. FY26 cost - \$15,903.49	Strengths - Customer Service and VERY user friendly. Weaknesses - when adding/creating additional boards into the system, the setup could be more user friendly. Additionally, the final layout of the agenda isn't very aesthetically appealing.	N/A	YouTube and City Website	Facebook, IG, Buckygram (citywide newsletter), and website	7/8/2026
Lauderdale-by-the-Sea	CivicClerk from CivicPlus	3 Years, Granicus before	\$11,665.62 for Agenda Management and meeting streaming	I am extremely satisfied with the software. I find it is very user-friendly, and any support tickets I have submitted have been promptly addressed. CivicClerk posts everything directly to our website, so there are no additional steps.	N/A	They are streamed on our website and on TV	Website and email	7/7/2026

Plantation	We use Granicus product Peak agenda. I have used Legistar before which is way more robust, but Peak serves Plantation just fine. I also use e-comment with it and I use their Boards and Commissions program for advisory board management.	About 4 years	About 15K per year		Not at this time.	We don't stream to social media, however the ability is there with our Media manager that is associated with our management program. We stream which goes through our "view page". There is the ability to do that, and stream to all of the SM pages (FB, X and Youtube). We pay for the captioning service as well.	There is a "Send Agenda" feature with our program that once you publish the agenda, you just hit "send agenda" and it will broadcast to those that have signed up for the notifications. Kind of like constant contact but it uses the Granicus platform. (I recommend gov delivery also if you're looking for a communications platform)	7/7/2026
