All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions between a Participating Entity and Supplier must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. Additional design services offered by Mohawk include Personal Studio where member's can transform existing running line material to a custom product by changing yarn colors thus fulfilling agency colors and desired aesthetics. Mohawk also offers maintenance training for projects to help facilities and maintenance understand how to best maintain flooring throughout the life of the product. In a world where we have experienced supply chain disruption, Mohawk utilizes our in house fleet of 750 trucks to move material inside of the contiguous United States for delivery within 7 days. Mohawk maintains control of the product from production through delivery to Sourcewell members.	*
11	What levels of service (material only, turnkey, other) are being proposed?	Mohawk is proposing our complete commercial portfolio including broadloom carpet, carpet tiles inclusive of square and plank, walk off carpet tiles, luxury vinyl tile, adhesives, ancillary items including trims and base. Mohawk Group will also offer delivery, installation services for all the above listed products along with reclamation services.	*
12	Does the response include installation services?	Does the response include installation services?	*
13	If the answer to Line #12 above is Yes, describe in detail the following elements (Lines #14-16) of installation services.	See our response for Line 14-16 below.	
14	How does the Participating Entity select an installer?	Mohawk maintains a national database of installation partners who are trained and familiar with Mohawk product installation guidelines. Dependent upon the scope of the project, Mohawk will make a recommendation for an installation partner to the participating entity. If a participating entity has an installer that they are familiar with and prefer to use then Mohawk will review their past experience and confirm they are eligible to install Mohawk products as a subcontractor to Mohawk. Once confirmed, Mohawk will work with the installer to provide a proposal to the participating entity. Mohawk also identifies installation partners who hold socioeconomic status. If the participating entity is looking to obtain tier 2 spend towards their small business goals then Mohawk can facilitate an install that will support the entity's initiatives. If a participating entity has a dealer they prefer to purchase direct from then Mohawk will review past experience and eligibility then provide an authorization letter for the dealer to quote utilizing Mohawk's Sourcewell contract. This path will allow a participating entity to gain tier 1 small business spend if the entity elects a dealer with socioeconomic status.	

15	How does Proposer ensure installers are trained, experienced, and fully licensed within jurisdictions where work is performed?	All MohawkOne installation partners are Mohawk vetted and approved. The vetting process includes requiring all installers to provide references and requiring they hold all proper insurance documentation, licenses, and certifications. We request a current Certificate of Insurance document that demonstrates workers compensation and employer's liability insurance with limits and coverages as required by the law of the state in which the installer is located. Certificate of Insurance documents are kept on file and updated annually. All installers are also required to sign MohawkOne's Installation Partner Master Services Agreement. For each job, we require that the selected installer have crews large enough for the scope of work required and that their skills fit the job at hand. After each installation, we ask that our customers complete a Project Completion Form and provide feedback regarding their satisfaction of the work completed. This allows for ongoing vetting to ensure Mohawk is only partnering with proven and trusted installers with whom we have long term experience or who come highly recommended to us from highly trusted sources.	*
16	Does Proposer have a standard installation agreement it will require Participating Entities to use? If so, please upload a copy with response.	Mohawk does not have a standard installation agreement required for participating entities. The agreement between the participating entity and Mohawk is based on the Sourcewell's terms and conditions. If the participating entity provides an agreement to Mohawk, then Mohawk will review on a case by case basis.	*

Table 3: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
33	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Mohawk pricing is consistent with our not to exceed pricing structure.

Table 4: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
34	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Mohawk will provide a discount off list pricing for our complete portfolio including SKU numbers and a labor grid to include standard and prevailing wages - see attached 'Sourcewell Price Grid - 2023' and 'Sourcewell Price Grid - 2023 - CANADA' PDF document.
35	If Proposer is including installation services within its proposal, please describe how installation services will be priced, including applicable labor rates that may apply. How will Proposer address any prevailing wage requirements of Participating Entities?	We execute full accountability throughout the project management process. We establish site visits for determination of accurate measurements and to elaborate the true scope of work, so the proposal is a true and accurate reflection of the actual work to be performed (i.e. location, facility type, occupied space vs. vacant, project size, product type(s), installation deadlines, etc.) with competitive pricing. We work with our installation partner to review site visit pictures and confirm the floor plans and take offs are accurate. We will also provide a phasing schedule, onsite communication and direction for preparing the space for furniture lift or movement as needed. Our proposals are itemized by line item per unit of measure for both material and labor. An example proposal available if requested. See attached '2023 - Sourcewell Pricing' for labor grid.
36	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Mohawk can provide a 10-30% discount from the list price.
37	Describe any quantity or volume discounts or rebate programs that you offer.	Mohawk's pricing is not to exceed which means there is flexibility to provide a reduction to the published contract pricing dependent upon size and scope of the project.
38	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Mohawk provides our complete commercial portfolio to Sourcewell. If a product is launched and desired prior to amending the existing price grid then Mohawk will provide the same structure of pricing to the member as with existing products in the same platform. Regarding installation or sourced material to finish a project that is defined in the open market line items, this would be calculated as a cost plus dependent upon the risk Mohawk is taking to provide the particular line item. As a standard, Mohawk looks to have the most encompassing priced line items to fulfill procurement guidelines where participating entity's have limitations on "open market" items.
39	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Mohawk will not have any standard additional charges on every day quotes to the customer. Specific cases where a customer request expedited shipping, there would be an additional cost to the customer.
40	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.
41	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	- Alaska—we offer both a Prepaid and add and prepaid solution delivering via SPAN Alaska to many AK locations. - Hawaii—we offer solutions through SCD (Fontana, CA) and HYS (Hayward, CA) warehouse, AFF carrier. You may choose shipment to mainland Hawaii for delivery. Mohawk has one truck operating in Hawaii. - Canada—we offer solutions out of CAD (Calhoun, GA) and KND (Kent, WA/ KND for British Columbia). - Any direct ship (DRP) from manufacturing facility outside US is coordinated through International Logistics department and they will need to provide details to support. All delivery terms are prepaid and add.

42	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Mohawk has a full-service fleet to anywhere in the United States with the assistance of outside carriers in outlying areas. If a Sourcwell member were to require an expedited delivery then Mohawk has the resources to fulfill these requests whether by ground or air. Mohawk is also able to provide inside delivery if needed per the participating entities request.	*

Table 5: Payment Terms and Financing Options

Line Item	Question	Response *	
43	Describe your payment terms and accepted payment methods.	Mohawk's payment term is Net 30. Mohawk can accept payment via ACH, Wire, P-Card, and credit cards(Mastercard, Visa, American Express).	*
44	Describe any leasing or financing options available for use by educational or governmental entities.	Mohawk does not offer leasing or financing options.	*
45	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Mohawk utilizes a standard proposal document for quoting projects. Mohawk accepts participating agencies purchase orders based on the Sourcwell terms and conditions. Mohawk does not require any additional transaction documents. Mohawk will review any terms and conditions, service level agreements, etc. from participating agencies on a case by case basis.	*
46	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcwell participating entities for using this process?	Mohawk does accept P-Card as part of the payment process and there is no convenience fees for government and education members.	*

Table 6: Audit and Administrative Fee

Line Item	Question	Response *	
47	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	Mohawk's Contract compliance team will review the sales quarterly against the established contract price to ensure pricing is within the contractual parameters. A strategic account code is created to ensure our team is able to locate and manually pull all order sales (including material and labor) that are tied to the specific code. The strategic account code will be tied to all orders related to the Sourcwell contract and will be input by customer service at order entry. The Account Executive will also verify after order placement that the strategic account code is added. The Account Executive is also able to add the code if missed at the time of order entry. A review will be performed 15 days following quarter close to verify the vendor report has been completed based on the contractual requirements and review the request to Accounts Payable is consistent with the proposed administrative fee against the sales volume for the quarter.	*
48	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	With having a long standing history between Mohawk and Sourcwell, we understand what success looks like. Mohawk continues to review year over year trends with our Sourcwell spend at the state level, the piggyback state contract level as well as the growth between entity type including government, k-12, and higher ed. These trends and historical data will provide direction to Mohawk on next steps for engagement with our field Account Executives. Where we see growth in certain markets, we share best practices to leverage in other markets. Where we identify the market flattening or declining, we reevaluate our approach to penetrate from a different angle to leverage our Sourcwell agreement.	*
49	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Mohawk proposes a 2% administrative fee which will be calculated on material and installation services less freight.	*

Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
65	Sales force.	Mohawk maintains a commercial sales force of 129 people segmented with a government and education focus including a Senior Vice President, a Vice President, 12 Regional Vice Presidents of Sales, 2 Senior Directors of Segmented sales with each a focus on Education and Government, 3 Business Development Managers, and 110 Account Executives situated strategically across the United States and Canada.	*

66	Service force.	MohawkOne retains an extensive installer network which is comprised of approximately 400 flooring installation providers across all of the United States and Canada. All installers are vetted and Mohawk approved, and many are factory or field trained by Mohawk's Field Managers. Each installation partner employs a number of full-time local and / or traveling crews of installers. An installer is matched and selected for a job based on the scope of work of the project (i.e. location, facility type, occupied space vs. vacant, project size, product type(s), installation deadlines, etc.) and the installer's expertise and abilities to meet the needs of a project. We have the capability to manage large to small installations and provide successful installations in terms of schedules, cost, resources and scope. MohawkOne has the ability to add new partners as needed through our installer vetting process which includes the requirement to sign MohawkOne's Installation Partner Master Services Agreement. Mohawk directly employs sixteen full-time MohawkOne project managers who are responsible for coordinating and managing flooring installation projects for over 120 customers.	*
67	Dealer network or other distribution methods.	Mohawk maintains a dealer network across the United States and Canada. This may include a step by step process identifying who is responsible for meeting the needs of the Participating Entity at each stage of delivery.	As a Mohawk held contract, Mohawk will be responsible for meeting the needs of the participating entity in partnership with our dealer network. While our dealers and internal sales force will show entity's product, the dealer will be responsible for quoting, receiving a PO, and invoicing the member. Mohawk will be responsible for capturing the dealer sales data and reporting to Sourcewell. Mohawk is also responsible for ensuring lead times are met and delivery of the products to the dealer or entity location. If Mohawk is selling direct then Mohawk will quote, receive a PO, and coordinate install and shipment directly with the subcontractor. Once the entity signs the project completion form then Mohawk will invoice for the project.	*

Mohawk understands the importance of dealer relationships and involving their presence in our forward deployment of the Sourcewell contract since they are in constant contact with participating entities.

Line Item	Question	Response *
77	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Mohawk has a three part strategy for promoting Mohawk's Sourcewell contract which includes continuous education for our sales force, business development with Sourcewell members, and marketing Sourcewell at different shows Mohawk attends. - LEED and WELL are building certification in which projects earn credits toward certification by using safe and environmentally responsible building products. Our products contribute to those credits by proving they are sustainable through the certifications listed above. - All manufacturing locations adhere to wood sourcing principles, such as FSC®, PEFC™ or other third-party validation, to ensure 100 percent of our wood fiber comes from responsibly managed forests, recycled waste streams or recovered wood sources by 2030. These programs are validated through an annual audit process. - We have a robust ReCover Recycling Program. Through our current ReCover Recycling program, we offer post-consumer recycling all across North America and Canada. We use different methods to process post-consumer waste at the end of its life - recycle, upcycle, downcycle, waste-to-energy. We have a network of recycling partners all across the U.S. and Canada. Continuous Education: Mohawk has 124 Account Executives throughout the United States and Canada focused on government/education. As a historical contract holder, Mohawk has provided continuous education around cooperative purchasing and the Sourcewell contract. In q4 of 2022 Mohawk's Education & Government leaders hosted multiple trainings to include 12 regions of ed/gov focused Account Executives. This has continued into Q1-Q2 of 2023 where we will wrap up the remaining four regions. This training explains to our field why Sourcewell is an easy button for the customer and satisfying the bid requirements. We also teach them about the breadth of product on Sourcewell and the complete turnkey solution with a two year install warranty. From a member perspective, we show them specifically how to locate Sourcewell members, how non members can register, the process for quoting and tracking the Sourcewell member business. Marketing: Upon award, Mohawk will modify our Capabilities document showing Mohawk's Sourcewell contract details and why Mohawk will be beneficial to members. Mohawk will utilize our CRM to pull existing Sourcewell members and host a blitz notifying customers that Mohawk has been awarded a new Sourcewell contract for Flooring and Related Materials. In addition to this, Mohawk Group will offer a co-branded press release through our social media presence showcasing the award. Mohawk will also continue to utilize Sourcewell branded collateral at trade shows we attend such as Georgia Procurement Conference, NIGP events, etc. Business Development: Mohawk has created four new roles in business development where the sole focus is to identify education and government end users. Mohawk will continue to work with our Account Executives to identify members in each geography to target and grow the business with strategically. This includes providing past flooring spend, key decision makers in facilities and procurement, and historical Sourcewell usage.
78	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We align digital content strategies with brand strategies to scale content delivery with business objectives. We optimize our tech stacks to integrate content creation, publishing and analytics for 360 degree insight into our marketing campaigns, as well as to track inbound social data/activity to effectively measure social ROI and business value. We set smart goals and measure them frequently, tracking through data-driven interpretation to gain insights and make optimizations to drive awareness and conversion. Using a multi-channel communications approach, we target audiences and drive lead generation via email, Facebook, Pinterest, LinkedIn, Instagram, Twitter, and native website/blogs.
79	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell's role in promoting the contract award is to be available to Mohawk when members are having trouble grasping the cooperative process or need more information from Sourcewell as to how this contract is best suited to help the member. Mohawk also sees Sourcewell as a partner who will connect members with awarded suppliers when members inquire.
80	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Xchange is our e-commerce platform The Xchange platform allows customers that are setup to go online and check stock, place orders, get order status, file a claim, and pay their bill. Similar to an Amazon or Walmart.com. It allows them to shop and put items in their cart and turn into an order. Quotes are generated by sales on a project by project basis but customers and customer service have access to create a quote as well.

81	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Dependent upon the project, Mohawk offers job starts where a technician will come out to ensure everything is situated for a flawless installation. Mohawk Account Executives or Mohawk Field Services are available to provide maintenance training. This is at no cost to Sourcewell members. If education and government maintenance teams have a better understanding of how to maintain the product installed then the life of the flooring will be set up for success whether that be aesthetics or performance.
82	Describe any technological advances that your proposed products or services offer.	A key technological advance that Mohawk is proud of is our launch of EcoFlex ONE backing. This backing is 100% carbon neutral plus an additional 5% carbon offset. This product is always NSF140 Platinum rated. Regarding Fiber, Mohawk Group's Color Pulse™ is a breakthrough in fiber innovation that delivers the visual texture of a space dyed yarn, but with the low environmental impact and high performance of a solution dyed nylon. Using zero water, Color Pulse™ save 5,300,000 cups of water every year. Doing More with Less • Zero water: Color Pulse uses zero water in its dyeing process, conserving natural resources. • River conservation: As a cornerstone of the Waterways Project, the purchase of Color Pulse products supports donations to projects that are working to preserve river health and human health around the world. • Longer lifecycle: Carpets made with Color Pulse deliver greater durability to minimize environmental impact. They are also easy to recycle through our ReCover program

83	Describe any "green" initiatives or Environmental, Social, and Governance (ESG) that relate to your company or to your products or services, and include a list of the certifying agency for each.	At Mohawk, we take a holistic approach with sustainability and utilize the environmental, social and governance or ESG mindset. This holistic approach centers around the three pillars of People, Planet and Performance and includes goals, some of which we already have met, to guide our work. Here we are highlighting our holistic sustainability approach and recent initiatives that will foster greater results. - CLIMATE-POSITIVE FUTURE: Being part of the climate change solution by implementing a decarbonization strategy through measurable science-based targets - o Reduce Scope 1 and 2 emissions by 25 percent by 2025, which we already have achieved. Further work to reduce carbon emissions continues. - o Develop consistent process for measuring and assessing Scope 3 emissions to help develop science-based emissions targets and report Scope 3 emissions by 2024. - WATER RESTORATION- Improving efficient and responsible use of water in all processes and products - o Reduce water intensity by 30 percent by 2025, which has been achieved. We continue to work on further reductions - PRODUCT CIRCULARITY- Thoughtfully minimizing environmental impact across product life-cycle through sustainable design, innovation, extended use and responsible use - o Release a product circularity goal for each business segment by 2025. - o Reduce waste-to-landfill intensity 30 percent by 2025. - RESPONSIBLE SOURCING- Selecting suppliers and partners that meet our ethical, sustainable and socially conscious standards - o All manufacturing locations adhere to wood sourcing principles, such as FSC®, PEFC™ or other third-party validation, to ensure 100 percent of our wood fiber comes from responsibly managed forests, recycled waste streams or recovered wood sources by 2030. These programs are validated through an annual audit process. - o Engage in carbon reduction partnerships with our supply chain as part of the process to develop SBTs. - o Improve spend with diverse suppliers year over year. Develop a strategy to grow supplier diversity in 2022 via a cross-functional Supplier Diversity Committee - Initiatives: - o The Climate Pledge - This global movement co-founded by Amazon and Global Optimism in 2019 as a challenge to businesses to achieve net zero carbon by 2040. Mohawk Group is proud to be one of only a select few of manufacturers, to accept the challenges of The Climate Pledge. - o The Waterways Project – a journey through new products, technologies, and initiatives to help us better understand and give back to the living watersheds that sustain us all partnering up with Waterkeeper Alliance and Change the Course - o Susan G. Komen initiative: Since 2001, Mohawk has supported Susan G. Komen on behalf of the company's community of employees, architects and designers, many of whom have been touched by breast cancer. - o Art lifting: As part of its Better Together Initiative, Mohawk Group partnered with Art Lifting to champion artists who are impacted by housing insecurity and disabilities. Art Lifting provides a platform and creates opportunities for these underrepresented artists to amplify their voices and participate in the contemporary art market.
84	Describe how your products contribute to or promote the health, quality of life and well-being of our members and others (e.g., Low VOC emissions, minimal acoustical impact, allergen repellent materials, light reflectant).	All Mohawk carpet is Green Label Plus certified and hard surface products are FloorScore certified, exceeding the most stringent requirements for VOC emissions contributing to clean and healthy indoor air quality. FYI: Indoor Air Quality goes by many different names. You may see IAQ, low-VOC, CDPH v1.2-2017, or CARB compliant. All these acronyms can be satisfied by our Green Label Plus or FloorScore certificates

85	Identify any third-party issued eco-labels, ratings, ESG scores or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation (such as: FloorScore, Formaldehyde Emission Standards, FSC Certified, EPDs, HPDs, LEED, WELL Building Standard), life-cycle design (cradle-to-cradle), or other green/sustainability factors.	All Mohawk carpet is Green Label Plus certified and hard surface products are FloorScore certified, exceeding the most stringent requirements for VOC emissions contributing to clean and healthy indoor air quality. FYI: Indoor Air Quality goes by many different names. You may see IAQ, low-VOC, CDPH v1.2-2017, or CARB compliant. All these acronyms can be satisfied by our Green Label Plus or FloorScore certificates. -Material Transparency: Many Mohawk Group soft surface products and select hard surface products have material disclosure documents. These documents list all the materials that make up our products and disclose whether they have any health effects on the people around them. We have two types of material transparency documents: Health Product Declarations (HPDs) and Declare labels. HPD and Declare labels are both material transparency documents. -Multi Attribute Certifications: There are a number of certifications that look at multiple attributes of a product, such as its energy use, recycled content, durability, and waste minimization. NSF 140 Gold certification is the industry standard, and Mohawk Group has reached this level for all nylon fiber commercial products. We went above and beyond with EcoFlex ONE and reached NSF 140 Platinum certification, becoming the first running line carpet tile to do so. C96The Living Product Challenge is a third-party product certification program administered by the International Living Future Institute. Living Products at their base are: • free of toxins • respect the rights of workers • have a net-positive carbon and water impact, and • aim to positively impact their environment. All our Mohawk Group nylon fiber on EcoFlex backing carpet tile is Living Product Challenge (LPC) Petal Certified. LPC requires that all environmental “handprint” (or give back) projects are associated with social co-benefit, meaning that the handprint activities must be performed for an organization or community that otherwise would not have been able to undertake them under normal circumstances.	*

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements (including Canadian Free Trade Agreement, Ontario-Quebec Trade and Cooperation Agreement, and Canada-European Union Comprehensive Economic and Trade Agreement, as applicable), and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In addition, where applicable, other purchasing cooperatives and procurement officials receive notice and are encouraged to re-post the solicitation opportunity.

Proof of publication will be available at the conclusion of the solicitation process.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Flooring Materials with Related Supplies and Services, that include, but are not limited to the following types of flooring solutions;
 - a. Resilient;
 - b. Ceramic;
 - c. Porcelain Tile;
 - d. Wood;
 - e. Hardwood;
 - f. Laminate;
 - g. Rubber;
 - h. Vinyl;
 - i. Broadloom carpet;
 - j. Carpet Tile;
 - k. Epoxy;
 - l. Flooring hybrids;
 - m. Floor mats;
 - n. Rugs;
 - o. Supplies related to the removal, installation, maintenance, restoration, and cleaning of flooring materials complementary to the offering above (a. – n); and,
 - p. Services related to the design services, removal, installation, maintenance, restoration and cleaning of flooring materials complementary to the offering above (a. – n.).

Proposers may include related equipment, accessories, supplies and services to the extent that these solutions are ancillary or complementary to the equipment, products, or services being proposed.

2. The primary focus of this solicitation is on Flooring Materials with Related Supplies and Services. This solicitation should NOT be construed to include a services-only solutions.
3. This solicitation does not include those equipment, products, or services covered under categories included in pending or planned Sourcewell solicitations, or in contracts currently maintained by Sourcewell, identified below:
 - a. Athletic Surfaces with Installation, Related Equipment, Materials, and Services (RFP #031022); and,
 - b. Artificial Turf and Tracks with Installation, Related Equipment, Materials, and Supplies (RFP #031622).

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment-only or products-only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell encourages suppliers to offer the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. PROSPECTIVE CONTRACT TERM

The term of any resulting contract(s) awarded by Sourcewell under this solicitation will be four years. Sourcewell and supplier may agree to up to three additional one-year extensions based on the best interests of Sourcewell and its Participating Entities. Sourcewell retains the right to

consider additional extensions beyond seven years as required under exceptional circumstances.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$60 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. A proposer may submit only one proposal. If related, affiliated, or subsidiary entities elect to submit separate proposals, rather than a single parent-entity proposal, each such proposal must be prepared independently and without cooperation, collaboration, or collusion.
3. If a proposer works with a consultant on its proposal, the consultant (an individual or company) may not assist any other entity with a proposal for this solicitation.
4. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
5. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
6. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
 - a. **Line-item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
 - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any contract resulting from this RFP.
2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers awarded a contract are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict

Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Vendor Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Vendor Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

E. GENERAL PROPOSAL REQUIREMENTS

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.
- Submitted in English.
- Valid and irrevocable for 90 days following the Proposal Due Date.

Any and all costs incurred in responding to this RFP will be borne by the proposer.

F. PROPOSAL WITHDRAWAL

Prior to the proposal deadline, a proposer may withdraw its proposal.

VI. EVALUATION AND AWARD

A. EVALUATION

It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and

price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Factors to be considered in determining the number of contracts to be awarded in any category may include the following:

- Total evaluation scores (giving consideration to natural breaks in the scoring of responsive proposals);
- The number and geographic location of highest-scoring proposers that offer:
 - A comprehensive selection of the requested equipment, products, or services;
 - A sales and service network ensuring availability and coverage for Participating Entities' use; and
 - Other attributes of the proposer or contents of its proposal that assist Participating Entities in achieving environmental and social requirements, and goals.

Information submitted as part of a proposal should be as specific as possible when responding to the RFP. Do not assume Sourcewell has any knowledge about a specific supplier or product.

B. AWARD(S)

Award(s) will be made to the highest-scoring proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Sourcewell may request written clarification of a proposal at any time during the evaluation process.

Proposal evaluation will be based on the following scoring criteria and the Sourcewell Evaluator Scoring Guide (a copy is available in the Sourcewell Procurement Portal):

Conformance to RFP Requirements	50
Financial Viability and Marketplace Success	75
Ability to Sell and Deliver Service	100
Marketing Plan	50
Value Added Attributes	75
Warranty	50
Depth and Breadth of Offered Equipment, Products, or Services	200
Pricing	400
TOTAL POINTS	1000

C. PROTESTS OF AWARDS

Any protest made under this RFP by a proposer must be in writing, addressed to Sourcewell's Executive Director, and delivered to the Sourcewell office located at 202 12th Street NE, P.O.

Box 219, Staples, MN 56479. A protest must allege a procedural, technical, or legal defect, with supporting documentation. A protest that merely requests a re-evaluation of a proposal's content will not be entertained

- The name, address, and telephone number of the protester;
- Identification of the solicitation by RFP number;
- A precise statement of the relevant facts;
- Identification of the alleged procedural, technical, or legal defect;
- Analysis of the basis for the protest;
- Any additional supporting documentation;
- The original signature of the protester or its representative; and
- Protest bond in the amount of \$20,000 (except where prohibited by law or treaty).
