## **Nomination for Outstanding Performance Award – Andrew Shea**

Andrew Shea is a Utility Mechanic I within the Utilities Department, Field Operations Division. He began his career with the City of Sunrise on November 30, 2015 as a Maintenance Worker I. Since then, he has steadily advanced through the department, earning promotions to Maintenance Worker II on April 24, 2017, Utility Serviceperson on October 8, 2018, and Utility Mechanic I on December 30, 2019.

Andrew works within the Water Distribution Repair Crew, a team responsible for maintaining and repairing the City's water distribution infrastructure, including water mains, water service lines, and water meters.

As a member of the Water Distribution Repair Crew, Andrew performs his duties during regular working hours and is frequently called back after hours to respond to emergencies and complete repairs to ensure Utilities Department customers continue to receive safe, potable water.

A strong example of Andrew's dedication, along with the Water Distribution Repair Crew, is the implementation of the Advanced Metering Infrastructure (AMI) Project. The City is currently upgrading all water meters, and Andrew has spent a significant amount of time working alongside the contractor to repair leaks on water service lines identified during the meter replacement process.

Andrew has also received several commendations from residents regarding his professionalism and customer service.

Andrew is a tremendous asset to the Utilities Department, and we are proud to nominate him for the Outstanding Performance Award.
