

City of Sunrise

Annual Summary of the School Zone Speed Program

The program recorded the following statistics:

July 1 through June 30	2025-2026
Notice of Violations that were issued	9,114
Notice of Violations that were paid	6,414
Violations that were issued a Uniform Traffic Citation	0
Violations that were contested	55
Violations that were upheld	0
Violations that were dismissed	158
Violations that were pending Uniform Traffic Citation issuance	2487

The funds collected were distributed as follows:

- \$600,602.22 represents the total amount collected from School Zone Speed Detection Program Notices of Violation
- \$228,560.00 represents the total amount distributed to the State of Florida, including the amount distributed to each applicable state fund (Florida Department of Revenue – General Revenue Fund, Florida Department of Revenue – D.L.E.C.J.S.T.T Fund, County School District, County School Crossing Guard Recruitment and Retention Program)
- \$205,644.00 represents the amount retained by the City’s General Fund

Currently, the City has **13 School Zone Speed Cameras operating at seven locations**, all of which are in the enforcement phase.

Prior to implementation, the City conducted an extensive public awareness campaign that included message boards, pamphlets, mailings, social media, and presentations and participation at community and school meetings.

Since implementation, the City has observed a **significant reduction in school-zone speed violations** compared to the pre-implementation analysis, demonstrating improved compliance with the posted school-zone speed limits.

Local hearings commenced following the initial survey period, and the City is now beginning the process of issuing **Uniform Traffic Citations for eligible violations**.

The City will continue to monitor the program and report the required enforcement, compliance, and financial information as part of its annual reporting requirements.
