

City of Sunrise
Annual Summary of the Intersection Safety Program

The program recorded the following statistics:

July 1 through June 30	2024-2025	2025-2026
Notice of Violations that were issued	21,262	17,758
Notice of Violations that were paid	12,260	10,127
Violations that were issued a Uniform Traffic Citation	6,954	5,335
Violations issued for a right-hand turn on red	1,859	1,150
Violations that were contested	131	91
Violations that were upheld	92	72
Violations that were dismissed	9	10
Violations that were pending	30	9

The funds collected were distributed as follows:

- \$1,998,198.71 represents the total amount of paid violations
- \$895,944.99 was paid to the State of Florida to be distributed to the Emergency Medical Services Trust Fund, the Brain and Spinal Cord Injury Trust Fund, and the State of Florida General Fund
- \$1,102,203.72 represents the total retained by the City of Sunrise General Fund

We have observed a decline in repeat offenders, indicating that driver behavior is improving for the better. In 2026, the recidivism rates were 96.2% for individuals receiving one violation, 3.3% for those receiving two notices, and 0.42% for those receiving three or more. This data reflects the continued effort to hold violators accountable and promote safer roadways in our city.

During the specified timeframe, the City of Sunrise experienced 11 fatal crashes; none of those fatal crashes occurred within a red-light camera intersection.
